**Scooping Top Awards and electrifying audiences in Chicago, Liquid Motion's provocative short film *BEYOND THE BLUE* does it again!**

**CHICAGO: February 22nd 2009**

At the forefront of Marine Science, [Liquid Motion Film](http://www.liquidmotionfilm.com) is proud to announce another Top International Award for WATER COLOURS episode teaser '*BEYOND THE BLUE*'. Already winner of the highest International Awards, at Film Festivals from the UK and Italy to Russia and the USA, Beyond The Blue was Awarded the Silver Medal at 'Our World Underwater Film Festival' in Chicago this weekend!

With the Cousteau's winning the first Awards back in the 70's, DivePhotoGuide/Wetpixel/Our World Underwater Film Festival is considered one of the most reputable and competitive Underwater Film Festivals worldwide.

*"Competition was tough. The bar was set high. With entries from all over the globe, you have shined above the rest"* said Jason Heller, acclaimed Photographer and Publisher.

In conjunction with the imminent release of Liquid Motion's new WATER COLOURS Series, this new Award is yet another symbol of the quality and uniqueness of these films.
