#### **Water Colours wins Top Award**

The North Sea Film Festival Amsterdam highest recognition & award goes to "Water Colours: A Touch of Fluorescence", with FIRST PRIZE, BEST FILM in the Professional Category.

Once again, the stunning imagery of the secret communication channels of fish has brought the limelight to fluorescence pioneers 'Liquid Motion Film'. With the invaluable help of Scientific Advisors from three continents and associated directly with National Geographic/NGTI, Liquid Motion's 'Water Colours' Series started out in pole position, as the blue-chip underwater series of the decade.

This prominent First Prize - Best Film Award from Amsterdam, adds to the prestigious Grand Prix de L'Institut Oceanographique awarded in France recently.

Thank you so much to our Scientific Advisors and friends for years of relentless support (and who made this possible):

Dr. Charles Mazel, Mikhail V., Matz PhD., Prof. Roy L. Caldwell PhD., Dr. Ulrike Siebeck, Prof. Shaun P. Collin & Prof. Justin Marshall.

#### **Life Stories by Sir David Attenborough**

Recently published, *Life Stories* by Sir David Attenborough has to be the perfect Christmas present!

The sloth is Sir David's first essay in this collection of his own personal insight into the natural world around us. He also talks about his first ever pet, a salamander, and his favourite animal - the bird of paradise, as well as living fossils, flying dinosaurs, dragons and the strange antics of the duck-billed platypus. This is Sir David looking at the wildlife that has captured his imagination and enthusiasm over his distinguished career in TV, then wildlife TV. It is a fascinating trip around the world in search of extraordinary plants and animals, in the company of this wonderful communicator.

The RRP of the book is UK£20 but is available for:  
UK£10.99 from [amazon.co.uk](http://amazon.co.uk)
